What's new since AIDA64 v7.00

- Dark Mode with 3 dark themes
- Revamped user interface with configurable toolbar
- Icelandic localization
- AVX-512 accelerated benchmarks for AMD Ryzen Threadripper 7000 Series processors
- AVX2 optimized benchmarks for Intel Meteor Lake SoC
- Enhanced support for AMD TR5 socket motherboards
- Chipset information for AMD TRX50 and WRX90
- Improved support for Intel Arrow Lake and Lunar Lake SoC
- NZXT Kraken 2023 and Kraken Elite sensor support
- Gskill WigiDash LCD support
- Microsoft Windows 11 2023 Update support
- Preliminary support for Intel "Clearwater Forest" and "Panther Lake" CPU
- ACPI 6.5 support
- GPU details for AMD Radeon RX 6750 GRE 12GB, Radeon RX 7600 XT
- GPU details for nVIDIA GeForce RTX 4000 Super Series

Pricing and Availability

The AIDA64 product family for Windows PCs consists of three business editions and a home edition. The company's flagship IT asset management offering with hardware diagnostic features is AIDA64 Business, while a dedicated network inventory solution called AIDA64 Network Audit is also available, for a lower license fee. Designed for corporate engineers and IT technicians, AIDA64 Engineer includes expert tools not available in AIDA64 Extreme, the home edition of the software. Today all four AIDA64 editions are updated to v7.35.

About FinalWire

AIDA64 is developed by FinalWire Ltd., headquartered in Budapest, Hungary. The company's founding members are veteran software developers who have worked together on programming system utilities for more than two decades. Currently, they have ten products in their portfolio, all based on the award-winning AIDA technology: AIDA64 Extreme, AIDA64 Engineer, AIDA64 Network Audit, AIDA64 Business and AIDA64 for Android, iOS, Sailfish OS, Ubuntu Touch and Windows Phone.
